Dear Child Care Provider,

This letter is in regards to the 09/06/13 compliance check of your Level A, Registered Child Development Home. Iowa Code Chapter 237A and 441 Iowa Administrative Code, Chapter 110, describes specific requirements that must be met by a Registered Child Development Home. The following areas were out of compliance at the time of my visit:

At this time you have no children registered in your childcare. A compliance spot check was completed and you are aware that the following need to be completed, prior to you taking children in your childcare.

☐ 237A.3A(3d): Location is a single-family residence that is owned, rented, or leased by the person/program who is registered. May be an apartment, condo, townhouse, or other individual unit within a multiple unit residential dwelling. May NOT be a commercial or industrial building that is primarily used for purposes other than a residence.

☐ 110.5(1)e All accessible electrical outlets are safely capped.

☐ 110.5(1)f Combustible materials are kept away from furnaces, stoves, gas dryers, or water heaters.

☐ 110.5(1)r If not fenced, both in and aboveground pools must have a cover that meets or exceeds ASTM standards when not in use.

You currently have an aboveground pool and stated you will be taking it down if any children began attending your child care. If you do leave the pool up you will need to have a fence four feet above the sidewalls of the pool or a cover that meets ASTM standards.

☐ 110.5(1)r Fence for aboveground pool is four feet above sidewalls of pool. Height of pool walls not included in measurement.

You currently have an aboveground pool and stated you will be taking it down if any children began attending your child care. If you do leave the pool up you will need to have a fence four feet above the sidewalls of the pool or a cover that meets ASTM standards.

☐ 110.5(2)a A physician's signed statement of health and immunization status on the provider and all members of the household who may be present when children are in the home. Statements must be obtained at the time of initial registration and updated every two years.

☐ 110.5(2)b Certification by an approved trainer/organization in infant and child first-aid that includes mouth-to-mouth resuscitation. Certification will be maintained throughout period of registration. If they are unable to locate first aid training that includes mouth-to-mouth resuscitation, they must complete both a first aid course and CPR.

You were not able to find copy of your certificate.

Non-compliance with any of the mandated regulatory requirements listed above may lead to the cancellation or revocation of your Child Development Home Registration. **Please take whatever steps are necessary to completely address each of the violations noted above. It is essential you correct all above-mentioned violations within the next 45 days.**

☐ Based on the items out of compliance listed above, a recheck or follow up visit to your home is not necessary. However, it is essential you provide documentation to the Department that certifies you have corrected each of the identified regulatory violations and are now in complete compliance with all Departmental regulatory mandates. **Please check mark each of the boxes listed above when the necessary corrections have been completed. By doing so, you certify that you have completed all of the mandated regulatory requirements contained within each identified section.**

I certify that I have taken all of the steps necessary to correct each of the identified violations noted above and am now in complete compliance with all of the Departmental mandated regulatory rules.
